This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

BIENNIAL REPORT

OF

DEPARTMENT OF STATE.

HON. SAMUEL M. RALSTON, *Governor:*

SIR—IN compliance with my official duties I herewith submit to you my report of the Department of State for the two years ending September 30, 1914.

An examination of the corporation records will disclose the fact that during the period of this report the domestic corporations greatly exceeded in number those that took advantage of the corporate laws of the State during the previous biennial period, while the amount of capital involved was less than during the latter period, and as a result the amount of the corporate fees was reduced, yet it shows that the business men of the State are fast learning to appreciate the benefits to be derived, as well as the protection afforded, by incorporating all lines of business, mercantile as well as manufacturing, under the corporate laws of the State.

The receipts from October 1, 1912, to September 30, 1914, are as follows:

The last Legislature enacted an Annual Motor Vehicle Registration Law, the administration of which devolved upon the Department of State. This law is proving both popular and remunerative. During the year and a half of its existence nearly a half million dollars have been distributed to the counties of the State, to be used exclusively for the repair of im-

proved roads. If the local officers having this fund in charge will use it for the purpose for which it is intended, Indiana will soon take her place in the front ranks as having more miles of improved roads than has any other State in the Union.

We gladly recommend this law as one of value to the taxpayer, and compliment the Legislature of 1913 for enacting it. Following is the summary of receipts and expenditures in this department:

L. G. ELLINGHAM,
Secretary of State.

†In addition to the facts from Z. T. Emerson, in History of Knox County, p. 148, I have used a date found upon a map of Knox County, prepared by Samuel Morrison, in October, 1875, and now in the State Library. Inferring from later legislation, the actual boundary of Knox County seems to have been on the north, the present north line of the following counties: Parke, Putnam, Monroe, Jackson, Jennings, Fayette and Union, including part of Wayne.
